Nasza firma zajmuje się produkcją stołów wibracyjnych. Stoły te służą przede wszystkim do produkcji ogrodzeń betonowych. Wyposażone są w dwa silniki-wibratory, każdy o mocy 0,55KW firmy Indukcja, co gwarantuje bardzo dobrą jakość wibracji a co za tym idzie doskonałą jakość wyrobu. Solidnie wykonana konstrukcja gwarantuje jego długotrwałą i niezawodną pracę. Przy zakupie naszego wyrobu dołączamy dokumentację techniczno ruchową – DTR zgodną z polskimi i unijnymi normami.
